

# RAJKUMAR CHOURASIYA

Mern Full Stack Devloper | Ai Agent Devloper | AI Integration

 rajkhourasiya2862002@gmail.com |  +91 74151 04895 |  Indore, M.P.

 Portfolio: [myportfoliowebsite-rho-tawny.vercel.app](https://myportfoliowebsite-rho-tawny.vercel.app) |  GitHub: <https://github.com/techRraj>

## About me

Results-oriented [Full Stack AI Engineer](#) with a proven track record of building scalable MERN applications and autonomous AI agents. I specialize in transforming complex business problems into efficient, code-driven solutions, delivering [40% faster load times](#) through advanced optimization and boosting [user satisfaction by 30%](#) via intuitive UI/UX overhauls.

Beyond coding, I bring a [founder's mindset](#) to development—having led teams to achieve a [20% productivity gain](#) through streamlined code reviews and mentorship. My expertise spans the full spectrum from [MERN web apps](#) to [LLM-integrated AI workflows](#) (LangChain, OpenAI, Function Calling).

Whether architecting robust systems from scratch or debugging critical issues, I combine technical precision with clear communication to deliver high-impact software on time.

## Experience

MERN Stack Developer [Bheema Infotech.in | Jan 2025 – Mar 2025](#)

- Developed responsive web applications using React js,
- Node.js, Express, and MongoDB.
- Built RESTful APIs for seamless frontend backend communication.
- Collaborated with team members on code reviews and debugging.
- Improved application performance by optimizing database queries.

WEB DEVELOPMENT INTERN [UnizZ Tech | Oct 2024 – Dec 2024](#)

- Integrated third-party APIs for real-time data fetching.
- Gained hands-on experience in version control using Git/GitHub.

## Featured Projects

### AI Agent for Lead Generator

Autonomous AI agent that captures, qualifies, and auto-saves leads to Google Sheets Built with LangChain.js, Function Calling, and Google Sheets API for real-time business automation.

Tech: [MERN](#), [LangChain.js](#), [Gemini API](#)

### Trading Screener Automation Agent

Real-time stock screening agent that scans NSE/BSE data and sends instant WhatsApp/Telegram(optinal) alerts for custom strategies (RSI, Volume, Price). Includes P&L analytics and risk calculation features.

Tech: [React](#), [Node.js](#), [WebSocket](#), [Financial APIs](#)

## KEY ACHIVEMENTS

- **Performance Optimization:** Achieved [40% faster](#) ,[lazy loading](#) ,and efficient state management in React
- **UX Enhancement:** Drove a [30% boost](#) in user satisfaction by revamping UI/UX with interactive components (Swipe,Toast Notifications).
- **AI Integration:** Successfully deployed autonomous AI Agents using [LangChain.js](#) and [Google Gemini API](#) for lead generation and data automation.
- **Leadership & Mentorship:** Improved team productivity by 20% by mentoring juniors, streamlining code reviews, and implementing scalable folder structures.
- **System Architecture:** Designed robust RESTful APIs that reduced onboarding time for new developers and ensured seamless frontend-backend communication.

## SKILLS

### TECHNICAL SKILLS

- ✓ Frontend: React.js, Redux, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Responsive Design.
- ✓ Backend: Node.js, Express.js, RESTful APIs, Microservices Architecture .
- ✓ AI & Automation: LangChain.js, LLM Integration (Gemini, OpenAI), AI Agents, Function Calling, RAG (Vector DBs), Prompt Engineering, Google Sheets API, WhatsApp API.
- ✓ Tools & DevOps: Git, GitHub, Postman, Vercel, Render, Docker (Basic).
- ✓ Databases: MongoDB (Mongoose), MySQL, Pinecone (Vector DB).
- ✓ Language: java (oops concept)
- ✓ Tools: Git, GitHub, Postman,

## AI Image Generator

Generative AI platform allowing users to create custom images from text prompts using DALL-E/OpenAI API. Features gallery view, download options, and prompt history for iterative improvements.

*Tech: React, Node.js, OpenAI API, Cloudinary*

## AI Chat Bot with Memory

Conversational AI bot with context retention, custom tools (time lookup, data fetch), and Hinglish support. Implemented LangChain.js for memory management and function calling capabilities. *Tech: React, LangChain.js, Gemini API, MongoDB*

## Paper Trading Platform with P&L Analytics

Virtual trading simulator with real-time market data, advanced P&L tracking, and portfolio analytics. Features include trade history, risk-reward calculator, and performance dashboard for skill building.

*Tech: React, Node.js, WebSockets, Chart.js, Financial APIs*

## Resume Builder

Interactive resume creation tool with multiple templates, real-time preview, and PDF export functionality. Includes ATS-friendly formatting and skill suggestion features. *Tech: React, Node.js, PDFKit, Custom CSS, mongodb*

## Doctor Appointment System

Online booking platform for scheduling doctor consultations with calendar integration and SMS reminders. Features include doctor availability tracking, patient history, and prescription management.

*Tech: MERN Stack, Twilio API, Calendar Integration*

## Education

**B.Tech in Computer Science Engineering (2023 – 2026) Malwa Institute of Science and Technology, Indore | RGPV University, Bhopal**

- *Relevant Coursework: Data Structures, Algorithms, Web Development, Database Management, OOPs, AI Fundamentals.*

## Hobbies

- Competitive programming and coding challenges
- Building personal full-stack projects
- Reading tech blogs and learning new framework Contributing to open-source projects.

## SOFT SKILLS

- ✓ Problem Solving
- ✓ Team Collaboration
- ✓ Communication
- ✓ Adaptability
- ✓ Time Management

## PROJECTS

- ✓ AI IMAGE GENRATER
- ✓ Ai Chat Bot
- ✓ Ai Agent for Lead Genrater
- ✓ Trading Screener Automation Agent
- ✓ PORTFOLIO WEBSITE
- ✓ WEATHER DASHBOARD
- ✓ E-COMMERCE WEBSITE
- ✓ HOSPITAL MANAGEMENT SYSTEM
- ✓ Resume Builder
- ✓ Docter Appointment
- ✓ Paper trading Platform with P&L Analytics with Advance fetures

## LANGUAGES

- **Hindi:** Native
- **English:** Proficient (Professional Working Proficiency)
